

HELP US BETTER UNDERSTAND EATING DISORDERS!

Parents, we are recruiting teenagers for a study about social and psychological factors in eating disorder treatment and recovery.

Study Requirements:

- Age 13-18 years of age
- All gender identities
- All races and ethnicities
- In an intensive outpatient or partial hospitalization program
- Able to provide informed consent

Participation Involves:

- Clinical Interview
- Questionnaires
- Computer-based tasks
- Monetary compensation for time spent
- There is NO treatment involved in the study
